

THAILAND
National Science Technology Development Agency (NSTDA)

Thai applicants are advised to check with the respective national Contact Points the eligibility as to who may apply and what costs are eligible before a consortium submits the complete application.

Eligibility

Research proposals may be submitted by:

- Public research institutions
- Higher education institutions
- SMEs

with a branch in the territory of the Kingdom of Thailand.

- In case of SMEs only 50% of the project related costs are eligible. According to NSTDA principles at least 50% of the project related and fundable costs should be financed through own resources.
- In case of public research institutions and Higher Education institutions 100% of the eligible project related costs can be funded. The maximum amount allocated for each project is 4,000,000 THB with a maximum duration of 36 months per project

Funding modalities

For researchers funded by the NSTDA, the funding is limited to:

- Personnel costs
Costs for scientists or student research assistants can be covered for the whole period of the project if their work is clearly related to the research project. Total personnel costs should not exceed 30% of total budget, excluding equipment and material costs.
- Mobility of scientists and experts
 - flights to and from destination: economy class flight
 - transfer to and from the airport (train ride 2nd class / public transport): on real costs upon presentation of a receipt
 - accommodation
- Equipment: fund only when necessary
- Consumables: consumable costs are to be spent in Thailand
- Indirect costs: shall not exceed 10%

Please also check further details of NSTDA regulation at <http://waa.inter.nstda.or.th/stks/pub/2014/20141030-grant-manual-cpmo.pdf>

Submission

Beyond the submission of the proposal through the dedicated online tool (PT-OUTLINE), the Thai applicants are asked to send the PT-OUTLINE generated PDF and financial plan in Thai Baht currency via e-mail to the Thai (NSTDA) National Contact Point.
