

THAILAND
National Science Technology Development Agency (NSTDA)

These regulations apply to Thai applicants for the Southeast Asia – Europe Joint Funding Scheme: 5th Call for Proposals.

NSTDA can support projects in the areas of **Infectious Diseases** and **Nanotechnologies**.

Eligibility

Research proposals may be submitted by researchers from:

- Public research institutions
- Higher education institutions

in the territory of the Kingdom of Thailand.

Funding modalities

The maximum funding allocated per project is **4,000,000 THB** for the project with the maximum of **three years**. NSTDA will support up to 3 projects. The following costs are eligible:

- **Personnel costs**
Costs for scientists or student research assistants can be covered for the whole period of the project if their work is clearly related to the research project. Total personnel costs should not exceed 30% of total budget, excluding equipment costs.
- **Mobility of scientists and experts**
 - return economy class flights to the project partner countries
 - airport transfer upon presentation of a receipt
 - visa costs
 - accommodation
- **Equipment**
NSTDA will support only on a limited scale and if justified.
- **Consumables**
Consumable costs include laboratory chemicals and materials, but does not include office supplies such as paper, stationery, and etc. Consumable costs are to be spent in Thailand.
- **Indirect costs**
Total indirect costs should not exceed 10% of total budget, excluding equipment costs.

If a project is selected for funding, then the Thai applicant will have to submit a version of the proposal in Thai. Please find more details at <https://www.nstda.or.th/th/industrial-research>

Submission

Proposals are to be submitted through the dedicated **online tool (PT-OUTLINE)**.
